

AMENDMENTS TO THE DRAWINGS

The attached sheets of drawings include the changes to FIGURES 1-5 as requested by the Examiner. Specifically, the drawings have been formalized and Figure 5 was amended to show “the system further comprising a receiver antenna for receiving the sum of the QPSK constellation symbols as claimed in claim 6.”

No new matter has been added. FIGURES 1-5 have been merely amended and corrected to more particularly point out and distinctly illustrate the subject matter Applicants believe is inventive.

REMARKS

In response to the Notice of Allowability and Examiner's Amendment dated November 1, 2007, Applicants respectfully requests that the Examiner reconsider the objections to the specification and drawings.

The drawings stand objected to under 37 C.F.R. 1.83(a) on the grounds that the drawings must show every feature of the invention as specified in the claims. Applicants have corrected these errors with the corresponding changes to the text and drawings set forth above. Formal drawings are being submitted subject to approval by the Examiner of the drawing changes.

No new matter has been added. Applicants respectfully submit that the Claims as they now stand are patentably distinct over the art cited during the prosecution thereof.

If the Examiner has any questions or comments concerning this paper or the present application in general, the Examiner is invited to call the undersigned at (214) 969-2721.

Respectfully submitted,

Wen-Chung Liu, et al.
